

# KRISHAY

100% Water Soluble Mixture of Fertilizer

**N:P:K -14:06:21**

*Farmers' first choice since 1974*

# MULTIPLEX KRISHAY

100% Water Soluble Mixture of Fertilizer

# मल्टीप्लेक्स कृषय

100% पानी में घुलनशील उर्वरक मिश्रण

**N:P:K -14:06:21**

Modern agriculture demands precision nutrient management to achieve higher productivity, improved quality, and to sustain long-term soil health. With increasing challenges such as nutrient losses due to leaching, soil degradation, climate variability, and rising input costs. Traditional fertilizer practices are no longer sufficient to meet crop nutrient demands efficiently. To address these needs, there is a strong shift toward innovative, crop-specific, and stage-specific fertilizer formulations that enhance nutrient use efficiency and reduce environmental losses. In this context, Multiplex Krishay 14:06:21 is strategically developed as an advanced, high-performance 100% water-soluble mixture of fertilizer that delivers a well-balanced combination of Nitrogen, Phosphorus, and Potassium in readily available forms. This formulation helps to achieve uniform crop growth, improved yield, enhanced quality, and better resistance to abiotic stress, thereby supporting sustainable and high-performance agriculture.

## DIRECTION FOR USE

**As Foliar Spray:** Dissolve 4 to 5 g of Multiplex Krishay in one liter of water and spray on leaves during vegetative stage, flowering and fruit development stage.

**For Fertigation:** Dissolve 3 kg of Multiplex Krishay in 200 liters of water and fertigate for one acre.

**For Drenching:** Dissolve 5 g of Multiplex Krishay in one liter of water and drench the plants thoroughly.

## BENEFITS OF MULTIPLEX KRISHAY

- ◆ A balanced formulation that ensures quick nutrient availability and efficient uptake, supporting crops throughout their lifecycle
- ◆ Reduced nutrient losses and improved nutrient use efficiency
- ◆ Promotes balanced growth and enhances photosynthesis efficiency
- ◆ Increases root mass and better root proliferation
- ◆ Increases plant tolerance to abiotic stress such as drought, heat, and salinity
- ◆ Improves yield both by quality and quantity

Available Packing: 5 kg
