

MUSHROOM TONIX

Advanced Growth and Protection Formulation for Mushroom

-  Mild Antifungal Properties Against Green Molds
-  Inhibit Yellow Pinhead
-  Enhances Mycelial Vigour and Stress Tolerance

-  Enzyme Synthesis
-  Nutrient Catalysis
-  Growth Promoter

Farmers' first choice since 1974

MUSHROOM TONIX

Advanced Growth and
Protection Formulation for Mushroom

Mushroom is a saprophyte that thrives in the decomposed organic matter, and needs continuous supplement of organic source for mushroom mycelial growth. Multiplex Mushroom Tonix is a concentrated nutritional supplement formulated to enhance metabolic activity and productivity in cultivated mushrooms. The formulation contains readily available carbon sources, nitrogen, minerals, organic growth factors, and vitamin cofactors that support rapid mycelial growth, efficient substrate utilization, and improved fruit body formation.

DIRECTION FOR USE

Recommended Applications Stage

1. During late spawn run stage (70 to 80% colonization)
2. At early pin formation stage

Colonization - Mix 2 ml of Multiplex Mushroom Tonix with 100 ml of water and evenly inject the solution into the substrate at 3 to 4 points around the bag when the spawn run reaches approximately 70 to 80% colonization.

Pin Head Stage - Mix 3 ml of Multiplex Mushroom Tonix in one litre of clean water and spray lightly over the substrate during pinhead initiation stage.

BENEFITS OF MULTIPLEX MUSHROOM TONIX

- Enhances mycelial growth
- Improves substrate utilization and nutrient uptake
- Stimulates pinhead initiation and fruiting
- Promotes higher yield and uniform flush development
- Helps to reduce mold development and enhances crop resilience
- Improves yield both by quality and quantity

PRECAUTIONS

♦ Do not apply before spawn run reaches at least 60 to 70% colonization ♦ Avoid excessive moisture during spray application ♦ Store in a cool and dry place away from direct sunlight ♦ Keep container tightly closed after use ♦ Keep out of reach of children and animals ♦ For agricultural use only.

Available Packing: 250 ml & 500 ml
